

BIODEGRADABLE STRAWS

PHA

PHA Straws: An Ecological Choice, Without Compromise

Introducing PHA straws – a modern solution for conscious consumers and businesses. Made from innovative, plant-based biopolymers, our straws ensure comfort of use without environmental concerns. They are exceptionally durable – they don't get soft or lose their shape, perfect for both cold and hot beverages. Most importantly, they are fully biodegradable in natural conditions, including soil, compost, and seawater, leaving no harmful microplastics behind. Safe for health and taste-neutral, they are an excellent, ecological alternative to disposable straws. Perfect for everyday use at home and in professional catering.

Packaging:

- › Retail packaging
- › Food service packaging
- › Wholesale packaging
- › Packaging tailored to customer needs

Colours:

Our production capabilities:

Diameter: 0.16-0.3 inch (4-7,7 mm)*

Length: 5.91-15.75 inch (150-400 mm)

* All values are for the outside diameter

All colors, diameters, and lengths can be customized upon request. Each straw can be individually wrapped in paper.
