

PLASTIC STRAWS

REUSABLE

Polypropylene straws

Our reusable straws, made of high-quality polypropylene, are the perfect solution for those who value convenience and care for the environment. Thanks to their durable construction, these straws can be washed and reused multiple times, significantly reducing waste.

They are food-safe, neutral to the taste of beverages, and are a practical alternative to disposable alternatives such as paper straws.

They are perfect for both home and food service, offering a durable and eco-friendly solution for any beverage.

Our production capabilities:

Diameter: 0.12–0.41 inch (3–10,5 mm)*

Length: 1.18–78.74 inch (30–2000 mm)

* All values are for the inside diameter

Packaging:

- › Retail packaging
- › Food service packaging
- › Wholesale packaging
- › Packaging tailored to customer needs
